

PRESS RELEASE

OHSa APPEALS FOR INFORMATION ABOUT LOCATION OF PLACE WHERE DANGEROUS WORK ACTIVITY IS REPUTEDLY BEING CARRIED OUT

20 April 2015

The Occupational Health and Safety Authority (OHSa) refers to the video showing a person working in an unsafe manner which was posted on Facebook by a certain Ms. Martina Torres. (link: <https://www.facebook.com/martina.torres12e/videos/vb.100000237302882/1014417741909460/?type=2&theater>). Allegedly the video shows a man working on a suspended working platform in what looks like a shaft of a block of apartments and allegedly shows work that has been going on for the past days

OHSa has requested Ms. Torres to provide details of the location where the video was taken. Unfortunately no reply has been forthcoming. OHSa has also alerted the Police about the matter; however, the site in question remains unidentified.

OHSa expresses concern at the indifferent and irresponsible attitude shown by some people at this gross disrespect to health and safety by which a worker is being allowed to work in such a serious danger to his life without alerting the relevant authorities. This is shown through a comment posted on the same facebook page which solicited free drinks if the video reaches 100,000 views.

In view of this, OHSa is appealing to the general public to assist it in locating the exact address of the site in question so as to take immediate action.

OHSa can be contacted on **21247677** during office hours or on **99496786** after office hours.
